## NEW PRODUCT HIGHLIGHTS

# Every design starts with inspiration.

Since 1954, Delta Faucet Company has looked at the world around us for inspiration, not just in our designs but in our inventive technologies. As we innovate the way people interact with water every day, we're doing it with a focus on fresh, versatile styles that are sure to catch your eye.

SpotShield® Technology

Water-Efficient Product—Kitchen Faucets: flow rate of 1.5 gpm or 1.8 gpm versus Industry Standard ASME A112.18.1/CSA B125.1 of 2.2 gpm.

## Matte Black Finish Expansion

A dramatic look that's striking in a variety of environments—from contemporary to transitional—we're expanding the Matte Black finish offering. For the kitchen, the contemporary pot filler, accessories and the Esque™ collection feature the finish. It's also been added to the Trinsic® and Ara® collections and custom showers in the bath.

## Black Stainless Finish

The new Black Stainless finish will be available exclusively on the Trinsic® Pro Collection. Less reflective and warmer than traditional Stainless Steel, Black Stainless offers a modern look that easily pairs with other black stainless appliances, as well as a variety of finishes in the kitchen.

## ShieldSpray™ Technology

With the innovative new ShieldSpray Technology, powerful cleaning doesn't have to make a bigger mess. Its unique water shield helps prevent splatters and sprays while still powering through the toughest messes.

- A concentrated stream of water cleans with laser-like accuracy.
- Less time soaking and scrubbing.
- Coming soon to select Delta® pull-down kitchen faucets.

## SpotShield® Technology

A finish that resists water spots, fingerprints and stains.

So faucets stay cleaner, longer. Available on select Leland® kitchen faucets.

## Esque™ Kitchen Collection

Poised and graceful, the new Delta® Esque Kitchen Collection partners elegant design with innovative technologies — adding a dash of modernity to transitional kitchen spaces.

- Inspired by a clipped ballet pose, the subtle wrap at the base creates a sense of movement.
- Available in multiple finishes.
- Includes Touch2O® Technology, DIAMOND Seal® Technology, and MagnaTite® Docking.
