

hansgrohe

Ideas for the Bathroom.

Showers • Faucets • Kitchen

Technologies

Intuitive water control – at the touch of an elegant button.

Each drop of water is infused with air, delivering an invigorating high-performance jet.

Keeps the flow to a minimum to save water and energy without sacrificing performance.

Anti-limescale function. Silicone spray channels/aerators enable you to simply wipe away deposits.

A generous sprayface that distributes water over a wide area, so your whole body is completely covered.

Defines the distance between faucet spout and base, ensuring a perfect fit for every combination of faucet and sink.

Spray Modes

A gentle shower rain with air-enriched drops to wash away daily stress.

A spray that is perfect for rinsing shampoo out of your hair.

For new energy after a challenging day: The dynamic, revitalizing massage spray.

A concentrated spray for massaging specific areas of the body.

A harmonious combination of gentle shower drops and invigorating massage spray.

A soft water spray that caresses the body for that feel-good sensation.

Intense water spray that energizes and wakes you up.

A strong massage spray that invigorates and soothes aching muscles.

Hansgrohe — A Brand and a Promise.

There's now a little button in the shower that provides a tremendous amount of enjoyment.

Worldwide, the name Hansgrohe stands for the best design, intelligent functionality and excellent user friendliness. We never stop reinventing the way we use water to make the user experience even better, so within this brochure you will find lots of fabulous products of exceptional quality that will provide you with your perfect water experience. For instance,

with our Select technology: A simple button provides even greater enjoyment and freedom in the bathroom and kitchen. This transforms our ideas for water into an experience in your home. Over the following pages, you will discover award-winning design with innovative technology and excellent quality — all made by the manufacturing experts at Hansgrohe.

We Work Hard to Exceed Your Expectations in Everything We Do.

Quality – Made by Hansgrohe.

Everything we do is about making perfectly designed products for you. Reliable products that will last, with excellent design and with exceptional user comfort – which are both beautiful and a joy to use. To that end, we are devoted to tinkering, testing and manufacturing to the highest standards, here at our headquarters in Germany's Black Forest, and also at our other locations all over the world.

SUSTAINABILITY.

You can trust our long-lasting, sustainably-designed products. Enjoy water savings without sacrificing performance.

DESIGN.

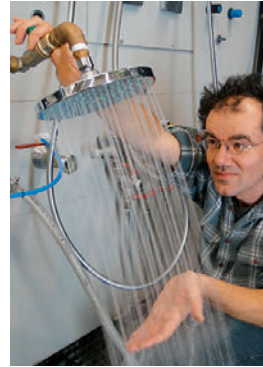

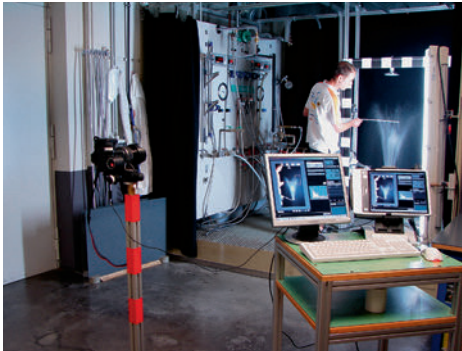

You can enjoy the form and function of our products each and every day. We have been collaborating with renowned designers for many years to create exceptional products – with our aesthetic ambition repeatedly being rewarded with international design awards. In fact, in the iF ranking Hansgrohe has the honor of being listed as the best manufacturer in the plumbing industry.*

RESEARCH & DEVELOPMENT.

Our goal is for you to experience as much joy from using our products as we do developing them.

TEST CENTER.

Products that function perfectly are essential. To ensure that they do, every Hansgrohe product is 100% water tested.

PRODUCTION.

So you can be sure our products will have a long life, all Hansgrohe production facilities worldwide uphold Hansgrohe's exceptional quality standards. This includes our North American headquarters just outside of Atlanta, where we assemble most of the Hansgrohe-branded products sold in North America.

TIMELESS.

Enjoy many years of water expertise: With products that delight with their excellent design, high level of functionality and meticulous construction.

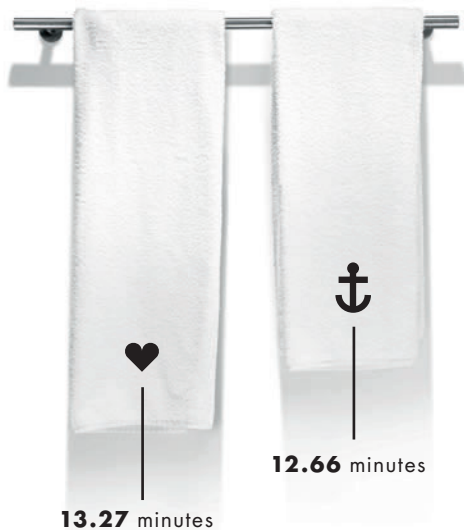

10 Things You Never Knew About Showering.

What is our favorite way to shower?

We at Hansgrohe do our very best to make sure that you have the perfect shower experience. To help us achieve this, we carried out surveys in 8 countries,

worked with 700 product testers all over the world, evaluated over 1.3 million responses, and conduct one-on-one research with consumers in ShowerWorld

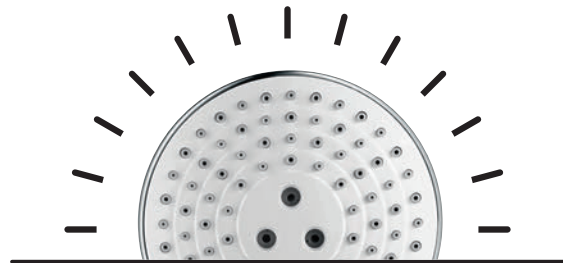

in the Hansgrohe Aquademie in Germany on the subject of everyday showering. These are the 10 most fascinating things we have discovered:

On average, men shower for **12.66** minutes and women for **13.27** minutes.

Shhhower

Over **20 %** of you would like a quiet zone or seating area in the bathroom.

47 % of people prefer to shower in the morning.

Three out of **five** people sing in the shower. Sappy love songs are the favorite.

70

Worldwide, we spend an average of **70** minutes in the bathroom every day.

53 % of people confirm that RainAir is their favorite spray in the shower.

94 % prefer the Select button to the traditional rotating ring.

17 % say that the shower is a source of inspiration and great ideas.

What did you like best about Hansgrohe products?

VARIOUS SHOWER SPRAYS LARGE SHOWERHEAD
 RAINAIR SPRAY TERRIFIC SHOWER EXPERIENCE
 EASY TO HANDLE COMFORTABLE TO THE TOUCH SELECT BUTTON
 LOVELY DESIGN GOOD QUALITY
 EASY TO CHANGE THE SHOWER SPRAY
 PLEASANT SPRAY PLEASANT FEELING WHILE SHOWERING

What is it that makes Raindance showers so special? Well, the name says it all, really: When you turn on the water, you start to dance under the shower – and that's every morning ... and you can sing as loudly as you want.

Product tester, trnd project 2013

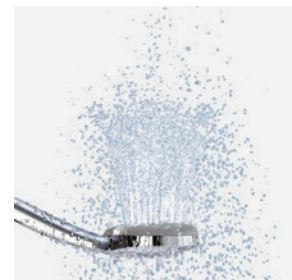

EcoRight: Responsibility and Performance.

Sustainability has a long tradition at Hansgrohe.

Having an Environmental Officer since 1989 and having been a WaterSense partner since 2007, Hansgrohe has a proven commitment to sustainability. Hansgrohe offers a wide variety of low-flow handshowers and

showers with flow rates ranging from 1.5 to 2.0 GPM, many of which have received the WaterSense certification. Our EcoRight products use our unique air-injection technology to deliver water savings that do not come

at the expense of performance. And all Hansgrohe faucets now boast the flow rate of 1.2 GPM or below – for even more responsible water use in the bathroom. Our tradition of sustainability is showcased through our products.

Without EcoRight Technology

With EcoRight Technology

Award-Winning Product Design.

Hansgrohe is constantly setting new design standards.

To us, design is not a matter of taste; it is an attitude – even a passion. After all, you experience perfect water pleasure with every one of your senses. Which is why we collaborate with international designers to come up with exceptional creations. The result: With the Hansgrohe and Axor brands, Hansgrohe is an award-winning player

in the decorative plumbing industry, and with over 500 national and international design awards, Hansgrohe is ranked no. 10* internationally among all product companies by iF (International Forum Design).

Design is never an end in itself in our daily work; rather, it is the constant expression of the synergy between form

and function. The search for the best solution is our goal, creating showers, faucets and comprehensive bathroom collections of exceptional quality that provide lasting pleasure, and in doing so, redefining bathroom and kitchen design.

DESIGN PLUS

German
Design Award

The Croma Select E 110 Handshower is the winner for 2015.

Between 2015 and 2016, the Talis Select S line has been showered with design awards.

The Focus 240 Single-Hole Faucet received the highest award at the 2012 iF Awards.

In 2013, the Raindance Select S 240 Showerhead came home with a win during the prestigious iF Awards.

The Croma Green Showerpipe was one of the most impressive Showerpipes in 2008.

**The Ultimate Experience
with Water:**
Hansgrohe Showers.

As Individual as You Are: Creating the Perfect Shower

Choose your perfect shower configuration and the matching control from our variety of showers.

A shower can be anything from a simple handshower set to a complete shower system: Featuring a mixing valve, showerhead, and bodysprays. Multiple

spray modes provide the perfect showering experience. The installation options are equally flexible: Whether it is a new build or a remodel, concealed

or exposed installation, Hansgrohe has the perfect solution for you.

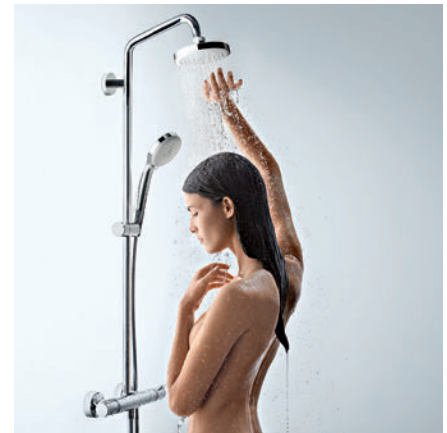

Handshowers

The basic solution — offers the same full shower pleasure, and is easy to mount on the wall.

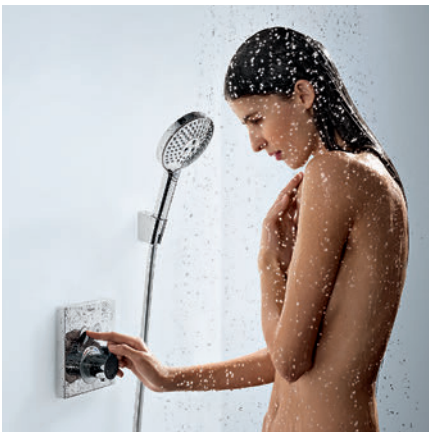

Showerheads

For relaxing or rejuvenating — because every day deserves a different shower. Installed on the wall or ceiling.

Showerpipes

With all-in-one functionality of showerhead, handshower and mixing valve, showerpipes install easily on two basic hot and cold supply lines.

Concealed Installation

The mixing valve disappears inside the wall — for a clean, sleek look in the shower.

Exposed Installation

The mixing valve is located in front of the wall, and attaches to simple hot and cold supply lines.

More Shower Technologies.

Passion for water, innovations for the bathroom.

AirPower.

Generous amounts of air are drawn in through the spray face. This quite literally stirs up the in-flowing water. The resulting air-enriched drops are fuller, lighter and softer. This not only feels good, but it also means that you are making the most efficient and splash-free use of our precious water.

QuickClean.

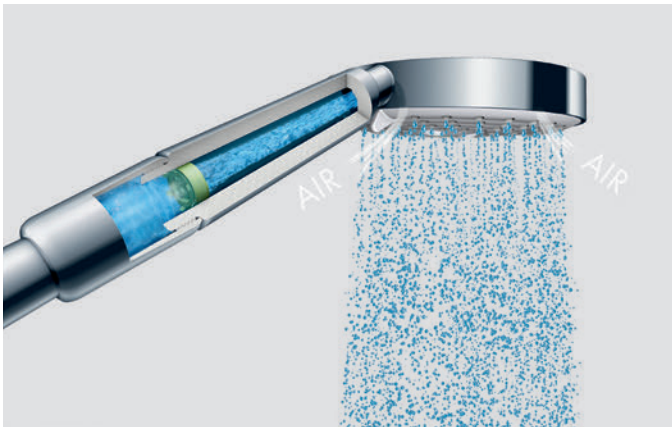

All of our showers have flexible silicone jets. Any deposits are quickly removed simply by rubbing a finger over them. Well-maintained limescale-free products not only look much nicer, they work better and last longer.

Visit our YouTube Channel for Spray Modes and More.

www.youtube.com/hansgroheusa

EcoRight.

Back in 1987 – long before saving water became such a big issue – Hansgrohe developed a handshower, the Mistral Eco, that used only half the amount of water and saved previous energy. Today, many of our showers are available in water-saving EcoRight versions.

XXL Performance.

By intelligently distributing the water over a large area, the whole body is enveloped in an exhilarating shower rain. For fabulous water pleasure.

Select: Push to Transform Your Shower.

The Easiest Decision You'll Ever Make in the Bathroom: Select.

We don't just want our ideas to revolutionize the way we experience water; we also want to set new standards in ease of use and control. There is one thing Hansgrohe developments should be above all else: they should be fun.

This claim goes with every single decision we make, and every line drawn by our designers. The Select button is simple and intuitive – touch, see, and experience the difference. It will change your shower experience

forever. Select technology shows the quality and innovation you can expect from Hansgrohe.

www.hansgrohe-usa.com/Select

Intuitive.

Hansgrohe redefined the showering experience with Raindance. Now the question is: What will make the best showers even better? It's clear – even easier control!

Simple.

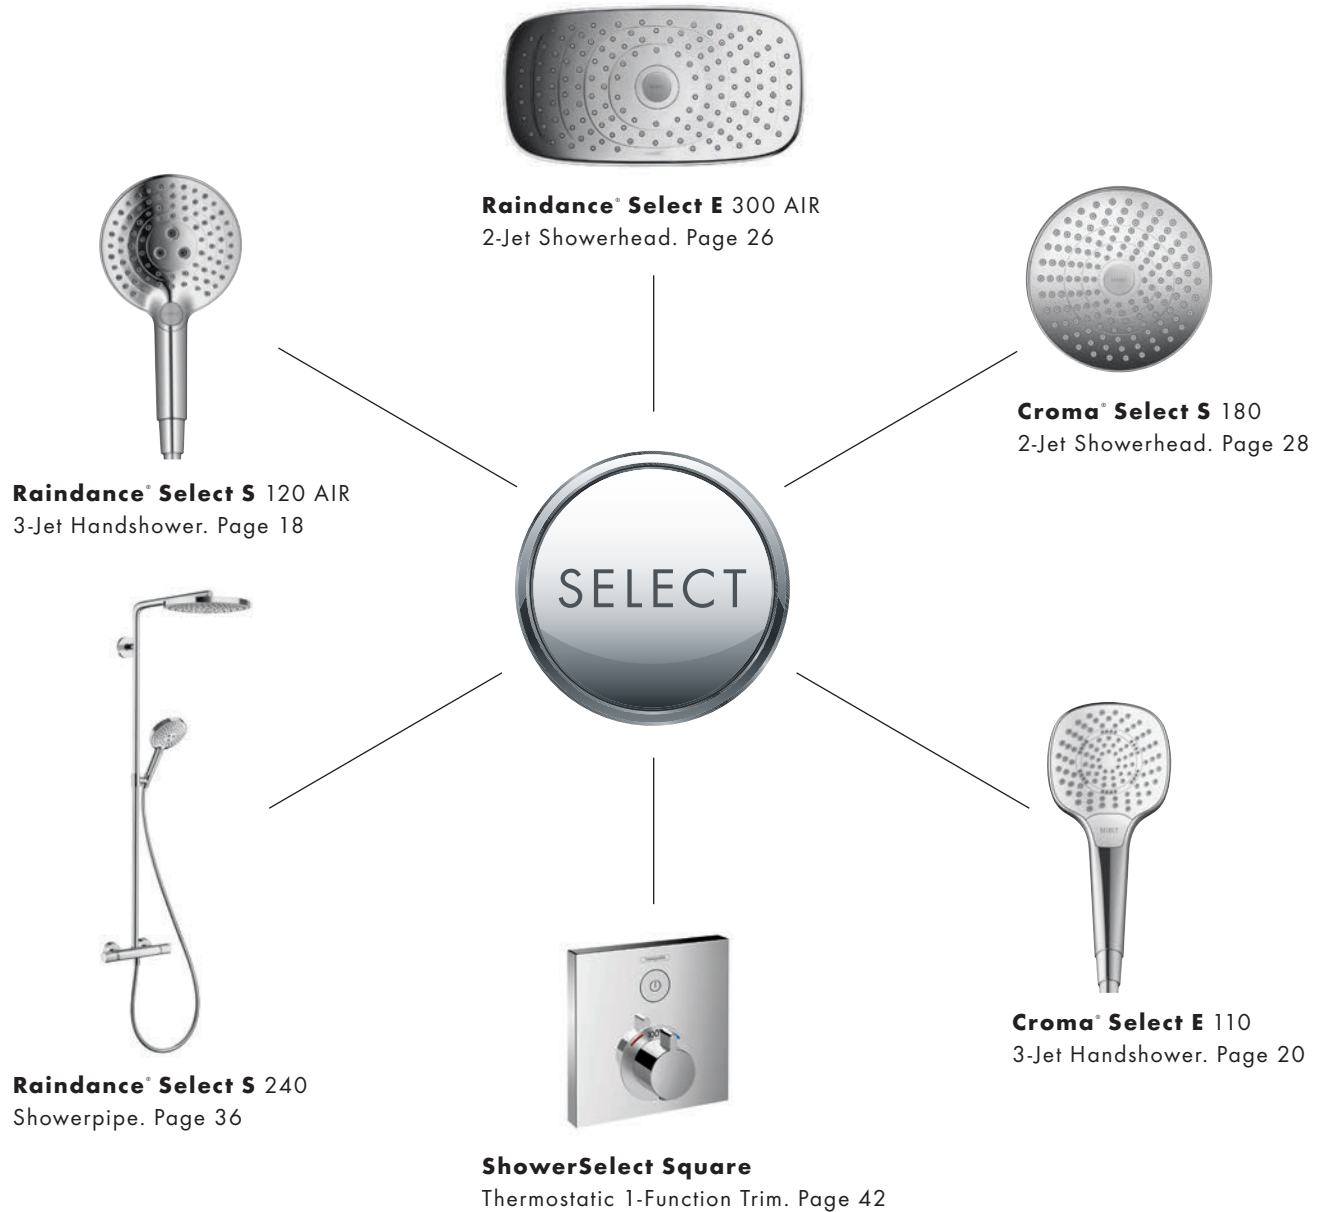

Why a button? Because it invites us to try it. It is fun to control something using a button and experience direct action and reaction. Change the spray modes on handshowers and overhead showers at the touch of a button.

Effective.

Select's button is mechanical, not electronic, making it quick and easy to press and most importantly, dependable – no batteries required.

Select Suite Video
See how Select can transform
your showering experience.

Raindance Select Handshowers: What's Your (Shower) Type?

From the shower to practical use: Water in your favorite form.

The Select button isn't all function; it also impacts form, allowing not only the familiar round sprayface, but also the SoftCube shape of the Raindance Select E handshower. Whether small

or large, round or SoftCube, in pure chrome, the dual-finish white/chrome – or brushed nickel – there's a choice for any taste. Raindance Select S 120 and E 120 handshowers are also available

in an EcoRight version that reduces water consumption by up to 20% versus a standard, 2.5 GPM flow rate shower.

www.hansgrohe-usa.com/Select

Raindance Select E 150 AIR 3-Jet Handshower
(2.5 GPM)

Raindance Select S 120 AIR 3-Jet Handshower
(2.5 or 2.0 GPM)

RainAir: Gentle air-enriched drops from large jets

Rain: Strong shower rain from smaller jets – perfect for rinsing shampoo out of your hair

Whirl: Concentrated massaging spray from rotating jets to relieve tension.

Select Button: Allows you to switch spray modes intuitively at the touch of a button.

Pleasure Showering.

You take your time in the bathroom, seeking to wash away the day's stresses drop by drop. **RainAir** lavishes soul-seeking bathers in pampering, soft spray, helping you lose yourself in your shower. Please do not disturb.

Efficient Showering.

You are the type of user that craves performance – a solid, steady stream of water robust enough to make short work of shampoos and soaps. **Rain** spray gives you the quick rinse and reinvigoration that you need so that you can get in, get out, and get on with your busy day.

Targeted Showering.

You use water as a wake-up call, directing spray where it's needed most – across a shoulder, to tired back muscles, then onto aching calves. **Whirl** provides a concentrated spray from rotating jets to revitalize fatigued body parts.

Croma Select Handshowers: Innovation at Your Fingertips.

The little button that provides a tremendous amount of pleasure.

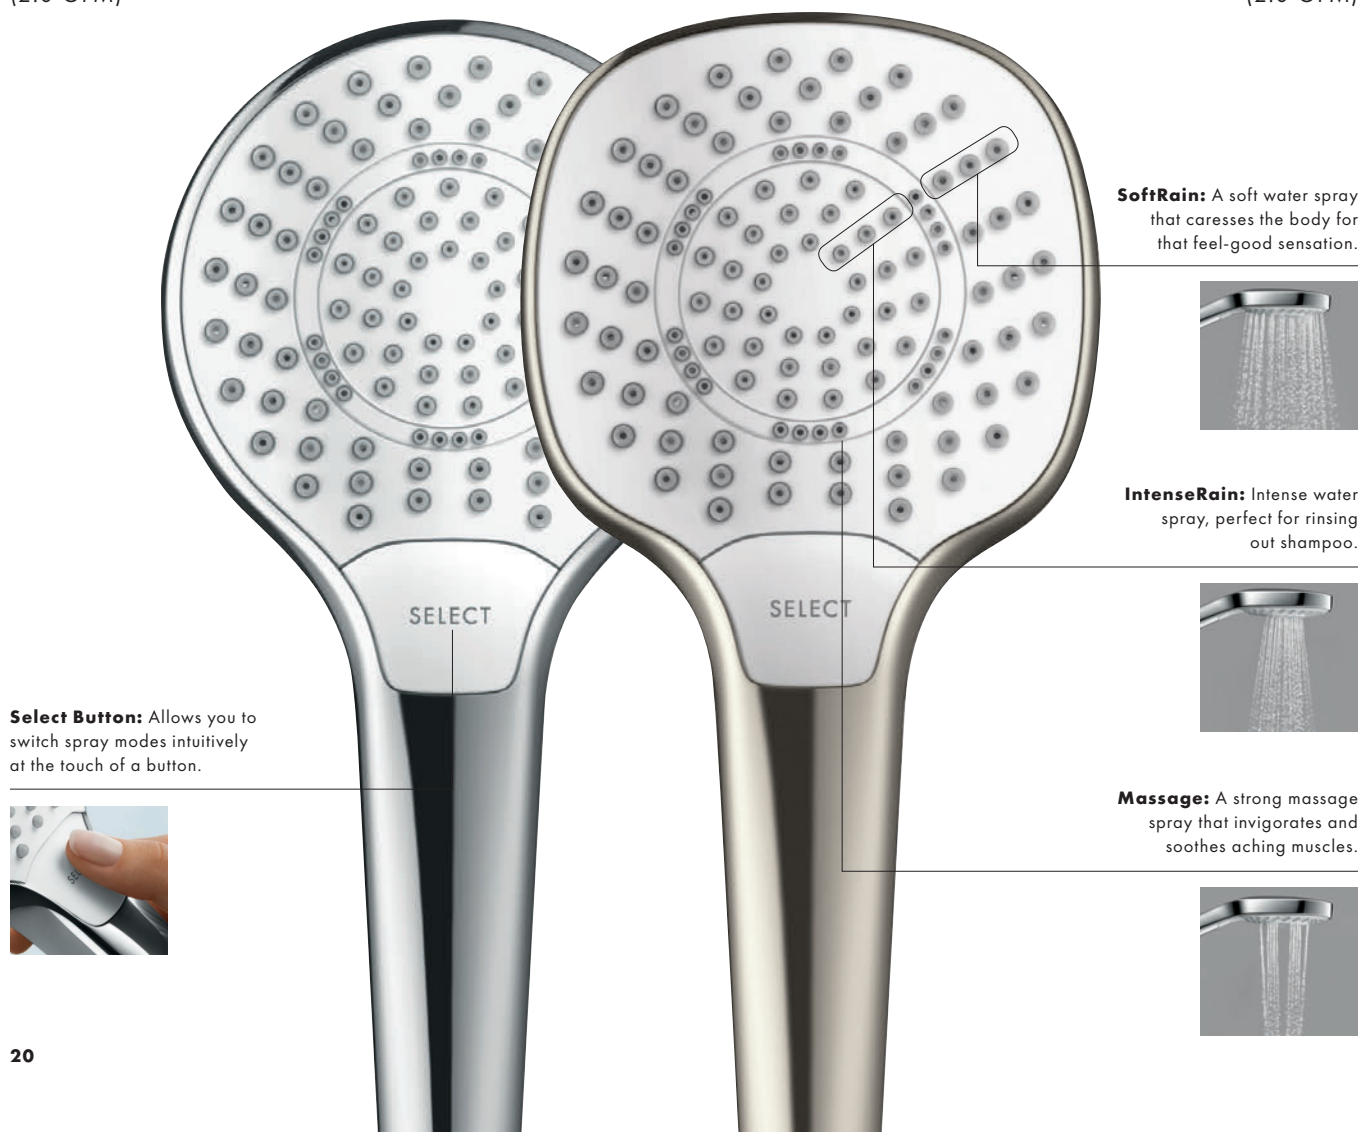

As a result of customer feedback, we have integrated the Select function into the next generation of Croma handshowers. The advantages of the Croma Select handshower are quite literally in your hands. Thanks to the

integrated Select technology, spray modes can be selected easily and ergonomically at the touch of a button. And their modern design is further enhanced by the elegant white of the spray face. In addition, the SoftCube

design is new for Croma handshowers, where the innovative Select button has replaced the turning spray face. And with its attractive price point, Croma Select is sure to delight.

Raindance Handshowers: The Right One for Everyone.

Experience the Multiple Benefits of a Handshower.

Advanced technology and a variety of options. With a Raindance handshower, you can control the intensity and direction of the spray easily and intuitively. All Raindance

handshowers feature air-injection, enhancing the quality and the performance of the spray. Raindance handshowers are available in different sizes, styles, and finish options to suit

your individual desires. With one of our handshowers, bathe little ones and furry friends with ease, rinse off bathing products, and clean your shower quickly and efficiently.

Raindance Select Showerheads: From Shoulder to Shoulder.

Overhead Showers for the Highest Standards.

Look up: The next frontier in showering is overhead, all thanks to a simple button. Simply press the Select button in the center to choose from the RainAir or Rain spray. Our Raindance Select overhead showers also come in

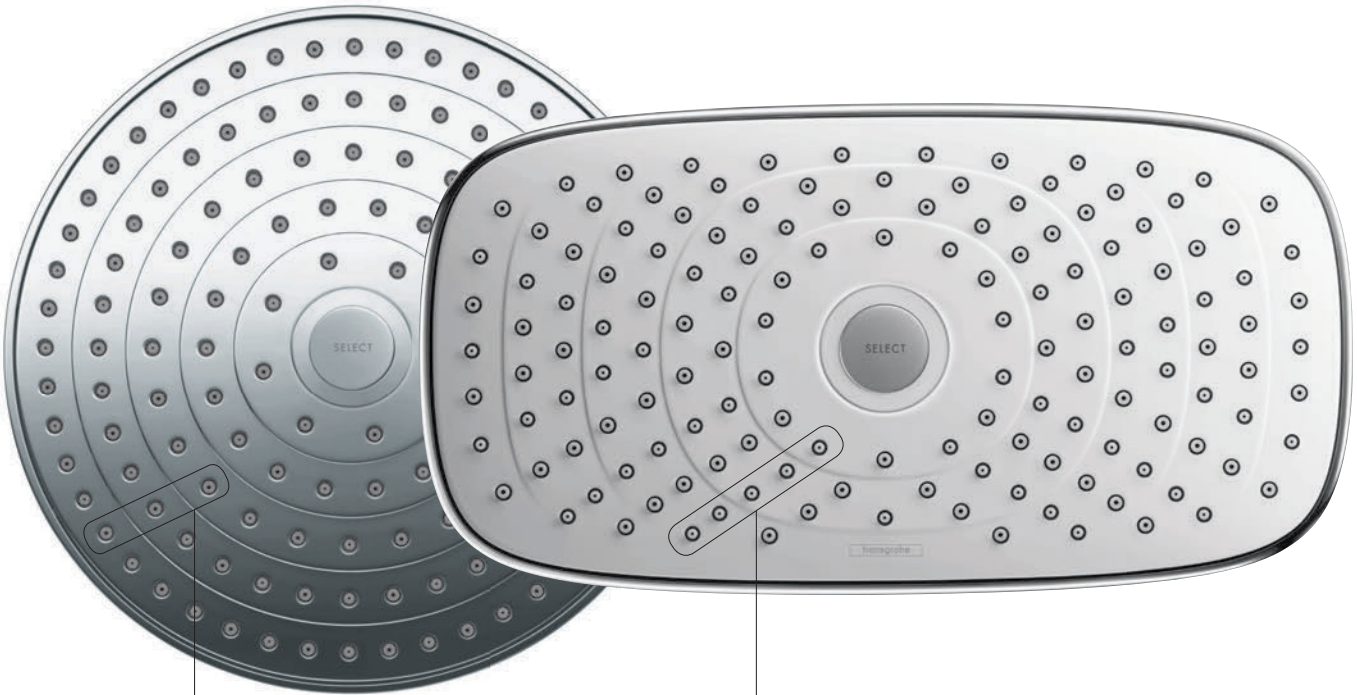

both our classic round version and in a contemporary SoftCube form with finishes varying from pure chrome, brushed nickel, or the dual-finish white/chrome. Showering in style never felt so easy. Finally, the spray face is removable

and easy to clean, which means it will stay both beautiful and functional for many years to come.

RainAir: Enjoy a gentle rain shower with air-enriched drops from large jets.

Rain: Strong shower rain from smaller jets — perfect for rinsing shampoo out of the hair.

Rain Air.

Every single drop of water from the **RainAir** spray bursts forth from a large, wide jet: Large voluminous drops enriched with air. It's perfect for those who delight in a soft, relaxing rain.

Rain.

Focused water released from smaller, narrow jets offer strong **Rain** streams to effortlessly rinse out shampoo. Those who enjoy an efficient shower can now rejoice, reinvigorate under the spray, and run to their next commitment.

Select Button.

Easy and intuitive. Push to escape. Push to surrender. Push to thrill. Push to transform your shower by simply switching from one spray mode to another, with the simple touch of a button.

Croma Select Showerheads: Designed to Please from Head to Toe.

Experience the ultimate in shower pleasure at the touch of a button.

Select technology also found its way into the Croma Select overhead showers. Now, a simple touch of a button in the middle of the sprayface is all it takes to easily switch between spray modes. The Croma overhead

shower is enjoyable in other ways as well. Thanks to the QuickClean silicone jets, simply wipe the surface with your finger to clean it. Best of all, whether you opt for the classic round design of the S style, or the soft cube shape of the

E style, a wonderful showering experience is yours to enjoy. Available in the attractive dual-finish white/chrome – and also in chrome and brushed nickel versions, which have a fully-finished matching sprayface.

Wallbars: Comfort and Individuality.

Choose your preferred versatility in the bathroom.

A fixed showerhead may not provide the same benefit for one user as it does for another. It is for this reason that Hansgrohe invented the wallbar in 1953. Wallbars, fitted with an angle-

adjustable handshower holder, allow you to easily adjust the removable handshower to your individual height by simply sliding the holder up or down the wallbar, addressing the needs of multiple

users and thereby enhancing your showering experience. This allows for versatility in pairing with your favorite handshower.

Raindance Unica S Wallbar, 36"

Includes 63" Techniflex hose
Available in chrome and brushed nickel

Unica S

Includes 63" Techniflex hose
Available in chrome, brushed nickel and polished nickel

Unica C

Wallbar, 24"

Includes 63" Techniflex hose
Available in chrome, brushed nickel, polished nickel and rubbed bronze

Versatility.

By adjusting the position of the slider, a wallbar allows you to easily target specific areas of the body, such as the shoulders and lower back. Plus, Hansgrohe also offers accessories that attach directly to the wallbar, to provide shelving for soap and shampoo.

Showerpipes: A Perfect All-in-One Alternative.

Discover the combination of mixing valve, handshower, and showerhead.

The interplay between sophisticated technology, perfect forms, and precisely matched components can be experienced in many different ways with the various

Hansgrohe Showerpipes. Hansgrohe Raindance and Croma showerpipes offer multiple shower options, as well as tub functionality on certain models. Using

two basic hot and cold connections, this versatile addition is ideal for new installations or as a one-step bathroom improvement when remodeling.

Basic Set

Spacing and leveling are key to a successful installation. Ensure perfect alignment with the showerpipe basic set.

Hot/Cold Supply Lines

Simple hot and cold water lines are the basis for installation.

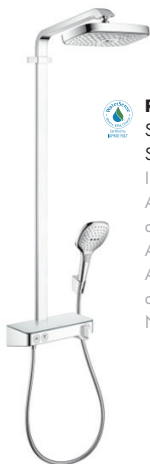

Completed Installation

Hansgrohe Shower Trims: A Wealth of Options for the Shower.

Whatever your style, a multitude of shower configurations are available to you.

Versatility at its finest: With a variety of mixing valves and diverters, Hansgrohe gives you more options than ever for creating the perfect shower. Accommodating all trim styles, Thermostatic or Pressure Balance, iBox Universal Plus rough is the universal rough that makes all of these configurations possible.

iBox Universal Plus Rough Video

The revolutionary rough for any shower configuration.

Pressure Balance

This configuration incorporates a single wall-mounted showerhead – a perfect fit for secondary bathrooms.

Pressure Balance with Diverter

The affordability of pressure balance with the versatility of an integrated diverter – ideal for tub/shower installations.

Thermostatic with Volume Control

Enjoy the benefits of both a handshower and a fixed showerhead with a Hansgrohe wallbar set.

Thermostatic with Volume Control and Diverter

This set delivers maximum control in just one trim and two independently-controlled shower functions.

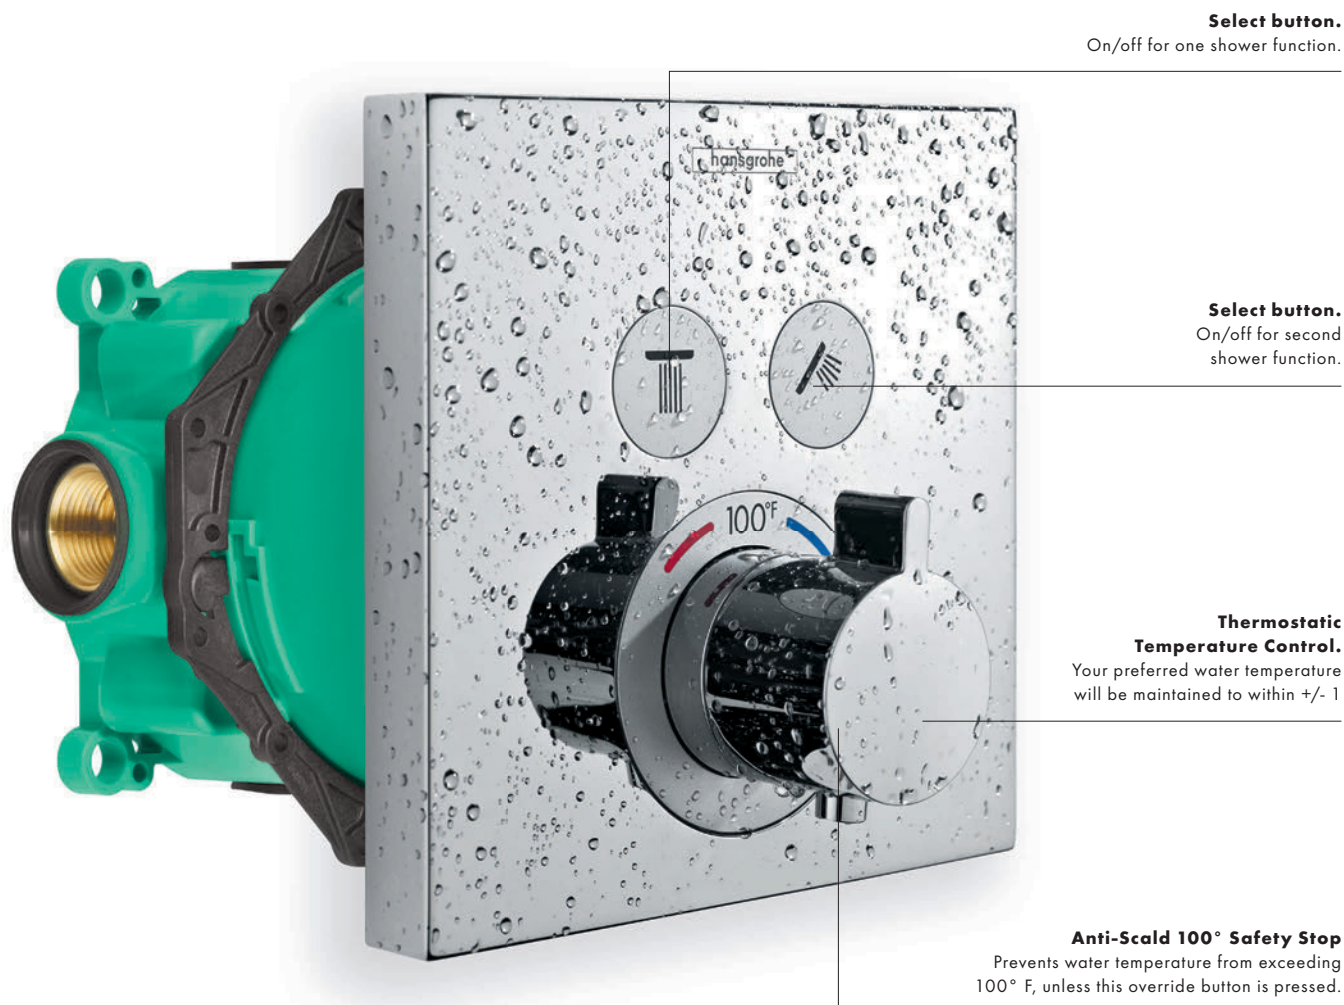

iBox Universal Plus Rough: Perfect For ShowerSelect.

The Hansgrohe ShowerSelect trims.

Creating the perfect shower installation has never been so easy. ShowerSelect trims combine geometric design and revolutionary push-button control into one sleek package. Just a

single touch of a button switches functions on and off, completely transforming your shower experience. It also puts performance at your fingertips, with purely mechanical operation that offers long-

lasting reliability. Your only worry: What water experience to choose. You'll find the ShowerSelect trim in two styles: With a square or round escutcheon plate.

Products displaying "ADA" will meet actuation force requirements outlined in the Americans with Disabilities Act and ICC/ANSI A117.1

Thermostatic 1-Function Trim.

Thermostatic offers many advantages over pressure balance valves, and with the ShowerSelect trim – easy, intuitive push-button control is also added to the list. One push to turn water on, and one to shut off. The result is a shower installation with a refined, architectural look, combined with easy, ergonomic control for all users.

Thermostatic 2-Function Trim.

A triumvirate of Select. In addition to the Thermostatic 2-Function trim with the latest push-button technology, both the overhead shower and the handshower shown in this installation feature Select technology. Select your shower functions, and select your spray mode on each of the shower components. All at the touch of a button.

**Water in its
Perfect Form:
Faucets.**

Turn Your Dream Bathroom Into Reality with Our Three Style Worlds.

Design your ideal bathroom with avantgarde, modern, or classic.

The bathroom has long since evolved from a purely functional room into a comfortable living space. More and more people are creating multi-functional rooms where design and comfort are as valued as functionality.

The culture of wellbeing adds its bit to this trend: The bathroom has long been about relaxation and a respite from daily life. A room where you spend time. Our faucets reflect this balance between functionality and beautiful design. In

order to provide you with inspiration, we have created three different style worlds for our products. You will find plenty of ideas for personalizing your dream bathroom in these style worlds. Let us inspire you!

Avantgarde.

Give your room a special kind of sensuousness with the playful details of this emotional design language.

Modern.

The style of reduction: Forms are reduced to their basic essence, removing all that is extraneous. The result is a calm room that is notable for its clear lines and sensuous shapes.

Classic.

A design language that equates to classic beauty, and radiates a warm, harmonious atmosphere.

ComfortZone: What Height is Just Right For You?

We all use water differently; we all have our daily rituals and our own tastes. These different requirements are met by each faucet series – by height,

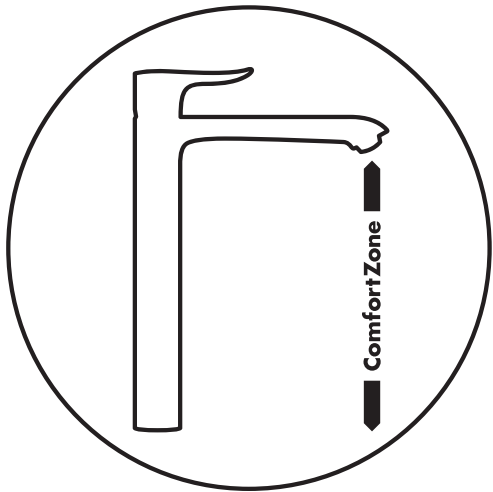

form, and function. The height of a faucet determines its versatility in how the water is used. We have a name for the distance between the faucet base and the spout:

ComfortZone. Find the height that is perfect for you, your requirements, and your home.

At the Hansgrohe Test Center, we have found the perfect pairing of faucet and sink. Download any of our tests to see for yourself!

Avantgarde.

Pure. Clear. Sensuous. Strong character right down the line.

Avantgarde is not about tomorrow's trends, but about your own trend. This style world plays with shapes to create the space for inspiration. In short: those who appreciate individuality will love PuraVida product line. The rounded lines

and organic shapes radiate creative self-confidence. The unique material and design language of the PuraVida product line is the forefront of the Avantgarde style world. The DualFinish process allows the surface materials to blend

together smoothly. PuraVida faucets are available in various heights, for individual space that we call the ComfortZone.

PuraVida Video
From concept to award-winning design.

Avantgarde solutions for bath and shower facilitate creative, individual design ideas. The PuraVida faucets themselves become sculptures, and complete the image of a style world

where people who like the special things in life are at home. Proof of the idea that although a bathroom has to be functional, it can also develop its own character.

Modern.

Reduced. Stylish. Functional. Clear line and clear water.

Modern embodies the idea of freeing oneself from the superfluous and the superficial to focus on the essential. A clear design language that leaves no questions unanswered. Clear lines lead

to sensible forms with **Metris S, Talis S, Talis E, Metris, Focus, and Logis**. This results in a reduced, well-planned whole. The combination of basin and faucet should also be

considered carefully, because it is the matching ceramic that shows your faucet in the best possible light.

Classic.

Timeless. Lively. Harmonious. Comfort that fills the room.

Classic is the translation of the traditional understanding of beauty into the here and now. This style world combines traditional values such as elegance, warmth, and harmony with modern elements. The balanced shapes of the **Metris C**, **Talis C**, and **Swing C** collections emphasize a lasting awareness of design. In order to perfect this feeling of comfort, our classic faucets give you the choice of various heights. Decide for yourself just how much space you need in everyday life to really feel good.

Recipe For Success: Kitchen.

Select Kitchen
The ultimate experience.

Quality in the Kitchen.

With features that increase comfort and ease of use, Hansgrohe makes time in the kitchen a joy.

The kitchen is the crossroads of the family home, and the kitchen faucet plays an important role in making the room as distinctive as the individual using it. With a range of models and

styles, and the quality and design you expect from Hansgrohe, dream kitchens become a reality. Hansgrohe kitchen faucets have beautiful design, superior durability, and several unique features

that improve ease of use and maximize versatility for retrofits. Installation is easy and the solid construction of Hansgrohe kitchen faucets ensures a lifetime of consistent operation.

Metris Select

MagFit Sprayer Port.

Magnet-assisted sprayhead docking ensures an easy and secure fit with a quiet 20-inch nylon hose.

Two Spray Modes.

Most pull-out kitchen faucets with a retractable sprayhead feature two spray modes: full and needle sprays.

Select Function.

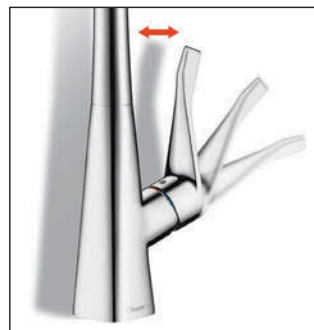

Easily start and stop the water flow with the Select button on the sprayhead, allowing you to dispense water beyond the sink.

QuickClean Aerator.

Silicone aerator and spray nozzles prevent limescale build-up.

Swivel Area.

All main and prep kitchen faucets feature a 150° swivel area.

Vertical Start Position.

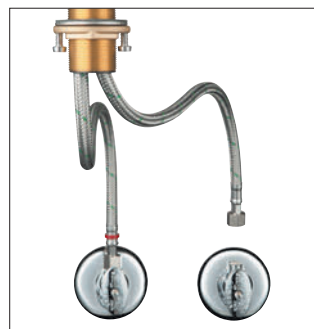

Permits installation even with limited backsplash area, and handle pulls forward to cold – to help prevent scalding.

Ceramic Cartridge.

Provides smooth, leak-free operation.

Bolt Lever Lock.

Prevents handle from becoming loose during repeated operation.

Easy Installation.

The included $\frac{3}{8}$ " flexible connection hoses make it easy to install the faucet.

Style Options for the Kitchen.

With five styles ranging from modern to classic, Hansgrohe has a collection to suit every need.

Scan the QR codes below for a short video.

Metris

Alluring angles and superior ergonomics. With distinctive, angular design featuring a unique, intuitive pull-out spray on the main and prep models, Metris faucets will fuel your passions in the kitchen.

Chrome

Steel Optik

Talis S

Modern style with personality. From the angular handle, to the distinctive flared spout of the HighArc kitchen faucet, Talis S kitchen faucets blend the best of style and functionality.

Chrome

Steel Optik

Talis S

Sharp angles, clean lines and bold forms define the reinvigorated contemporary style of Talis S faucets – simple, geometric beauty, yet with a distinctive personality all its own.

Chrome

Steel Optik

Focus

Clear, modern style within reach. Fresh, authentic modern design featuring a slender pull-out sprayhead is available to everyone, with the superior quality you expect from Hansgrohe.

Chrome

Steel Optik

Allegro E

Transitional design with elegant contours, Allegro E faucets exude both aesthetic and functional beauty, bringing warm hospitality to your kitchen – the most important room in the house.

Chrome

Steel Optik

Talis C

Clean, authentic traditional style. Delicate, scalloped edges and a trumpet-shaped spout, along with the attention to detail you expect from Hansgrohe.

Chrome

Steel Optik

Polished Nickel

Rubbed Bronze

Complete Assortment for the Kitchen.

Full depth of assortment for the kitchen in every style, providing numerous water uses.

Rubbed Bronze

Not all finishes are available for all product lines.

Hansgrohe North America, located in Alpharetta, Georgia, employs a Physical Vapor Deposition (PVD) process for brushed nickel and polished nickel finishes to ensure durability, longevity, and beauty. PVD finishes resist corrosion, tarnish, scuffs, and flaking. With this advanced technology, your Hansgrohe product will be beautiful for years to come.

Chrome and all PVD finishes are covered by the Limited Lifetime Warranty. Rubbed Bronze warranty is limited to 3 years. Please refer to www.hansgrohe-usa.com for detailed warranty information and finish availability.
